Man blames everything he possibly can onto woman—but he never seems to really try to get along without her.

A question that might attract considerable interest is: Do reformers make reforms, or do the reforms make the reformers?

What Might Have Been

That good men make mistakes was never more forcibly demonstrated than when Secretary McAdoo and others insisted upon the appointment of State Senator John M. Hart as Collector of Internal Revenue for the Western District of Virginia. The appointment was been of service to the Administration, and who represented Mr. Hart as a "friend of the President." Yet if the Administration was under obligation to Mr. Glass, there are of ther favors he could have asked ed; and of the many Democrats of the Ninth District who are quite as capable as Mr. Hart, and fully as deserving of recognition, there is not one who is not and who has not been the President's friend.

Probably the powers that be at Washington did not know that by all the rules of war and good politics the office of Internal Revenue Collector belonged to and should remain in the Ninth District. But Mr.

Mrs. Monroe Flanary died at her home at Dot, Lee Co., Va., on Tuesday, June 2nd. at five o'clock in the afternoon, surrounded by her family. Mrs. Flanary, who before her maring and wisser of Col. Campbell Slemp and Capt. Slemp, of this place, both now deceased, had been an invalid for many years from an acute form of rheumatism and for the past five years had been entirely helpless.

Mrs. Flanary was born December 11, 1834, and she and her husband, who survives her, were among the pioneer settlers of Big Stone Gap, having lived for many years at the present D. H. Bruce place, which she had always retained possession of in hope of eventually returning to the Gap to reside.

Of the eight children are Ellegant and James F. Flanary.

If we could only collect silver on some of our golden promises what a fine old place this world would be.

The Fourth of July will soon be here again, and if you want to have a big time come to Big Stone Gap.

It is awfully hard on a lazy man to have to work these hot days. We know—wev'e tried it.

It was could only collect silver on some of our golden promises what a fine old place this world would be.

The Fourth of July will soon be here again, and if you want to have a big time come to Big Stone Gap.

And another mistake was made by another good man when Mr. Hart accepted the appointment. If he had declined it with the simple state—were that the hall seed for the Mr. Church. South, from her early girlhood. Her example and influence will be sadly missed in the comunity in which she lived. Rev. Cole, of Pennington Gap, conducted the funeral services at the Flanary home of relatives and friends were present to pay their last tribute of love and respect to the memory of a good woman. After the body was laid to rest in the service at the house the body was laid to rest in the family burying ground.

clined it with the simple statement that he believed—as he did—that the office should remain in the Ninth District, it might have made him Governor of Virginia; and while this would have postponed the fruition of Mr. Glass' hopes and aspirations, not more than one out of every ten Democrats in ment that he believed-as he aspirations, not more than one out of every ten Democrats in the State would sympathize with the man who has done all in his power to imperial the chances for success of his own party in the Southwest.

But the Democrats of the Ninth District will not sink.

Ninth District will not visit their displeasure upon an innocent man. They are too loyal and intelligent for that. They will not blame Mr. Irvine or hold him to account for a judge from the comments, there was not much to talk about. The man who brags that he would fight till the hot place freezes over, and then fight on the ite would be the injustice that has been done falls most heavily upon him. But they will lay up their righteous resentment against the day of reckoning with those who are responsible for the injustice.—Bristol Her-

It is interesting to see Booster Coutts get about over town. He goes almost in a run, and part of the time without any lat on. He says that the rapid growth of Harlan since the rail road come has brought great prosperity to him. He has done all the plumbing for heating and water works in all the modern buildings put in Harlan for the last five years. His task is increasing every month. We are also glad to know that Mr. Coutts has the leading plumbing shop in Big Stone Gap, Appalachia and Norton and is doing business in over forty towns in this coal field.—Harlan Enterprise.
